

# SUMMERFOLK IS GOING GREEN AND SO CAN YOU!

## GREEN TIPS:

- Bring your own mug, reusable water bottle, and bags
- Separate your waste into compost, garbage, and recycling
- Carpool, take public transit, or cycle to festivals
- Ask food vendors for compostable plates and cutlery
- Purchase local & organic food and beverage options
- Use mobile apps/websites for information instead of brochures
- Fully clean up your campsite (tents, chairs, garbage etc.)
- Research the environmental practices of a festival before choosing to attend it
- Insist to your local municipality that all municipal events adopt green policies
- Whenever given the chance to provide feedback, share your thoughts on how important greening efforts are to your support of the event
